### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Election/Restrictions*

Applicant's election with traverse of Groups I in the reply filed on May 6, 2005 is acknowledged. The traversal is on the ground that all of the groups can be searched, and examination of the entire claim can be made without serious burden. This is not found persuasive because Groups I and VI are separate and patentably distinct since there is no patentable co-action among them. For example, when R<sup>1</sup> is an aryl or when R<sup>1</sup> is a heteroaryl, a reference anticipating one will not render the other obvious. Hence, Applicant's inventions are distinct and have acquired a separate status in the art due to their recognized divergent subject matter and different classification. A search of the six groups would impose an undue burden upon the Examiner. Thus, the restriction for examination purposes as indicated is proper. The requirement is still deemed proper and is therefore made **FINAL**.

Groups II-VI are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected subject matter, there being no allowable generic or linking claim.

Applicant is entitled to have the method claims, which are commensurate in scope with the elected invention, rejoined. An amendment, which results in the method claims being commensurate in scope with the allowed claims, will be welcomed.

Applicant reserved the right to file a divisional application to the non-elected subject matter.

An action on the merits on Group I is contained herein.

Art Unit: 1623

***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 12-14 are rejected under 35 U.S.C. 101 because the claims are identical to copending Application No. 10/358,898.

***Obviousness-type Double Patenting***

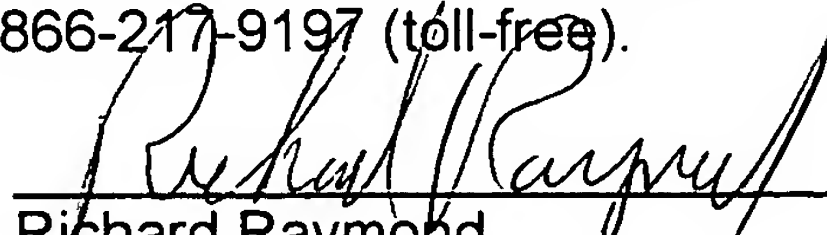

Claims 1-11 and 15-31 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-19 of copending Application No. 10/358,898. Although the conflicting claims are not identical, they are not patentably distinct from each other because overlapping subject matter is involved. Note that the species in 10/358,898 anticipate the present claims.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.
